

# 136. German School abroad in Chennai launched

## DSC – A special school for special children

On January 24th 2010 Deutsche Schule Chennai (DSC) was inaugurated ceremonally as 136. German School abroad and first bilingual school in Chennai. The initiators Thomas Pallushek (2.f. I.) and Melanie Rolf (left) were supported in the opening ceremony by speeches from Mr. Sauerteig, the German General Council in Chennai (right) and Mr. Siegfried Huber (2.f.r.) from the ZFA (Zentralstelle für Auslandsschulwesen – Bureau for German Schools Abroad) and were praised for their engaged commitment.

Invited guests were well-known personalities from politics and economy, who attended the procedure and informed about the new and different educational institution.

DSC has – as the first of its kind – taken up the cause to perceive children as personalities and therefore coach them into a successful future at the earliest. Basis for the project are substantiated experiences of the initiators in the field of adult education. Mr. Pallushek, as a jurist and leader of a management-consulting company, and Mrs. Rolf, an economist with psychological knowledge, who worked for HR departments in the field of skill enhancement successfully, want to detect the potentials of children early and cultivate them by preparing them playful, bilingual and in a multicultural environment for the challenges of a global society.

With the inauguration in January 2010 kindergarden and pre-school were launched. In September 2010 primary school will be opened in a neighboured building and the construction of another building will be arranged, which is supposed to be the upper school in the future.

A big thank you to all helping hands!
